EXPERIENCE

Machine Learning Trainer

Data Annotation | Remote   Feb 2024-Current

I specialize in transforming raw data into reliable inputs that power AI and machine learning models. I analyze various data types with accuracy, directly contributing to the performance of AI projects. Due to my proficiency, I am now trusted with reviewing the work of other annotators, maintaining consistency and quality throughout projects.

Probation Agent, SWAT Officer, Instructor

Utah Department of Corrections | SLC, UT   Apr 2014 – Sep 2023

Exhibited strong leadership and composure in high-pressure environments, effectively managing large caseloads as a Probation Agent while ensuring timely supervision. Leveraged subject matter expertise to instruct in various disciplines, demonstrating excellent time management and adaptability across multiple roles.

EDUCATION

Web Development

University of Utah | SLC, UT   Sep 2023

Developed proficiency in HTML, CSS, and JavaScript for building both static and dynamic websites. Gained hands-on experience with frameworks and libraries, including React, Node.js, SQL, MongoDB, and Bootstrap. Acquired a solid understanding of core computer science concepts.

COMMUNICATION

Respected instructor in law enforcement, specializing in hand-to-hand combat, lethal and less-than-lethal weapons, and use of force decision-making. Skilled in conveying complex concepts to individuals with diverse knowledge and experience levels.

POLYMATHIC

Passionate about continuous learning and personal growth. I dedicate significant time to researching diverse topics, both professionally and recreationally, constantly expanding my knowledge base. This commitment to lifelong learning enhances my ability to quickly master new skills and adapt to evolving challenges.

PROFICIENCIES

Vocational: Python – JavaScript – SQL – Data Annotation – React – MongoDB

Personality: Analytic Comprehension – Contention Settlement – Versatile – Subject Mastery – Performance Integrity – Time Management
